IV. BEHAVIOR / DISCIPLINE

A) **GENERAL RULES OF BEHAVIOR**

The Charlotte Valley Central School community works to foster an environment that will guide each student to develop:

- A firm code of moral conduct
- Respect for the dignity of others and
- Individual responsibility for one's own behavior.

There are three basic ideas from which all rules of behavior at Charlotte Valley Central School are derived. They include the following:

- 1) All people must be safe – emotionally and physically.
- 2) All property must be safe.
- 3) No person may disrupt the educational process.

B) **DISCIPLINE**

Students who do not obey school rules will be subject to disciplinary action. School personnel who interact with students are expected to use disciplinary action only when necessary and to place emphasis on the students' ability to grow to be self-disciplined. To address the ideas outlined in Section A) above, a Code of Conduct has been established for students that describes behavioral expectations and consequences. A copy of the code is available for examination in Appendix #1 of this handbook.

Disciplinary action, when necessary, will be firm, fair, and consistent so as to be the most effective in changing student behavior. School personnel authorized to impose disciplinary penalties will consider the following when determining appropriate disciplinary action:

- 1) The student's age
- 2) The nature of the offense and the circumstances that led to the offense
- 3) The student's prior disciplinary record
- 4) The effectiveness of other forms of discipline
- 5) Information from parents, teachers and/or others, as appropriate; and
- 6) Other extenuating circumstances.

As a general rule, discipline will be progressive. This means that a student's first violation will usually merit a lighter penalty than subsequent violations.

V. **RESOLVING A COMPLAINT OR CONCERN**

If a student or parent has any concern about a school policy or a situation involving a faculty or staff member, the following protocol in line with the chain of command should be followed in order to resolve the problem as quickly and effectively as possible:

- A) Contact the faculty or staff member with whom you have a complaint to discuss both sides of the situation. Opening and strengthening the lines of communication may be the most important and appropriate first step in resolving any complaint quickly and without escalation.
- B) If the problem still exists, contact the principal.
- C) If still unresolved, contact the superintendent of schools.
- D) Finally, if unresolved, submit a written request to the District Clerk to place the complaint or issue on the following month's Board of Education agenda, if appropriate, for further discussion.

VI. **THE SCHOOL DAY**

A) **Arrival**

The Charlotte Valley Central School is open to students at 7:45 a.m. The school building will remain locked until 7:45 a.m. Only faculty/staff members will be permitted into the building prior to 7:45 a.m. Middle and High School students may either go to breakfast in the cafeteria before the first bell or wait in a supervised area in the All-Purpose Room (APR). Students in grades 3-6 wait in the cafeteria. K-2 students wait in their classroom wing. A warning bell is sounded at 8:02 a.m. At this time, students may go to their lockers. At 8:05 a.m., a bell signals the official beginning of the day. Entering your first period class after 8:05 a.m. is considered tardy. Frequent tardiness can seriously affect your ability to be successful in school and may result in disciplinary action.

- B) **Departure** - School is dismissed at 2:50 p.m. The buses leave at 3:00 p.m. Teachers are available for extra help, with prior arrangement or appointment, from 2:50 – 3:15 p.m. An after-school enrichment program will operate for K-8 only – CROP (Creating Rural Opportunities Program) – will operate beginning on or about **September 18, 2023** from 3 to 5 p.m., Mondays through Friday when school is in session. This will include a second bus run. Only students participating in school-sponsored after school programs will be permitted to remain at school and to ride the late bus.

- C) **Attendance** - Education law requires that students enrolled in school attend school every school day unless legally excused. Regular attendance at school is imperative to your personal and academic success and achievement. Excessive absences and tardiness are not conducive to good work habits or learning. With this in mind, the Board of Education adopted a Comprehensive Attendance Policy (Refer to Appendix # 4).

The main objective of the attendance policy is to help you become more successful. Research shows a strong link between regular school attendance and academic achievement. In other words, if you are here every day and apply yourself academically, you are more likely to learn and be successful in school and in life after school.

- D) **Passes** - Any staff member supervising students may issue passes. Anytime you are out of an assigned class or activity you must have a pass in your possession. The pass should include the staff member's name, your destination, and the period and time of departure from that assigned area. Students should ask for late passes whenever they expect to be late to their next class for any reason. Students who are late for class without a pass shall be considered tardy.

Any student with two or more deficiencies or failures is ineligible to receive passes. See the "Deficiency / Failure Policy" chart in the following section for more detailed information about consequences for academic deficiencies and failures.

VII. **ACADEMIC INFORMATION – (As excerpted from the faculty and staff handbook section entitled "PROFESSIONAL STAFF RESPONSIBILITIES (Instructional)"**

A) Course Information – General and Specific Information / Guidelines

1) General Course Information

Within the first week of a new course, the teacher will distribute a one-page handout covering the following information for each scheduled instruction:

- Name of Class
- Teacher's Name, Phone Number, Times Available for Parent Contacts
- Brief Description of Course
- Units of Credit, Elective/Required Course
- State Mandated Testing Requirements
- Textbook or materials required (including book covers)
- Explanation of Grading System: Testing, Impact/Process for Accepting Late Assignments, Papers or Homework
- Student Expectations for Class

Please review this information carefully so that you are aware of any course requirements and expectations. If you are unclear about any of the above information, please discuss this with your teacher as soon as possible.

2) Secondary Math

a) Students who have not passed the Algebra or equivalent Regents will receive supportive services.

b) In order to enroll in Geometry students must have passed the Algebra assessment.

c) All students who intend to enroll in either Pre-Calculus or Calculus must have passed the Algebra II-Trig Regents examination.

3) Secondary Science

Students enrolled in all 9-12 science courses will be eligible to earn non-Regents units of credit pursuant to the following criteria:

a) A student may, at the discretion of the guidance counselor and teacher, be permitted to enroll in either chemistry or physics if they have not passed either the earth science or biology Regents examination. The specific student must, however, be concurrently enrolled in either earth science or biology and be taking either course for Regents credit.

b) The net difference between Regents and non-Regents credit shall be passing or sitting or not sitting for the Regents

c) All students in Chemistry and Physics must sit for the Regents Examinations in order to receive credit for the courses. Failure to sit for the Regents examinations will result in an incomplete with not credit awarded.

B) HOMEWORK HELP PROGRAM

Pursuant to provisions of the current collective bargaining agreement, members of the Charlotte Valley Central School professional staff are expected to be available after school to help students with work.

During the 07/08 school year the following protocol was developed to assist students:

TUTORING PROGRAM FOR GRADES 7-8

Days & subjects: Schedule and staffing to be determined during the first quarter of the school year.

Times: 2:50pm to 4:30pm. Students needing a ride will take the CROP bus home.

Purpose: to ensure student success.

Targeted audience:

1. Students who have a deficiency in a subject area will be required to attend weekly until the deficiency is remedied.
2. **Students that do not turn in homework on the day that it is due will have to stay after school that day to complete the assignment(s). Any student staying after school to complete work will not be eligible for after school activities for that day. After school activities includes all extracurricular activities.**
3. Students who are requesting tutoring but do not meet criteria 1&2 will be permitted to join the program if space is available.

Notifications:

Middle school teachers will notify the tutor as well as the student when he/she will be required to stay for tutoring. It will be the student's responsibility to contact his/her parent(s) or guardian. As the 4 core academic areas will only be covered once a week, it is extremely important for students to meet with the tutor on the assigned date.

TUTORING PROGRAM FOR GRADES 9-12

Days & subjects: Schedule and staffing to be determined during the first quarter of the school year.

Times: 2:50pm to 4:30pm. Students needing a ride will take the CROP bus home.

Purpose: to increase graduation rates, prevent failing grades and help all students reach their academic potential.

Targeted audience:

1. Students who have a deficiency in a subject area will be required to attend weekly until the deficiency is remedied.
3. **Upon the discretion of the teacher as outlined in their course outline, students that do not turn in homework on the day that it is due will have to stay after school that day to complete the assignment(s). Any student staying after school to complete work will not be eligible for any after school activities for that day. After school activities includes all extracurricular activities.**
2. Students who are requesting tutoring but do not meet criteria 1&2 will be permitted to join the program if space is available.

Notifications:

High school teachers will notify the tutor as well as the student when he/she will be required to stay for tutoring. It will be the student's responsibility to show the notice to his/her parent(s) or guardian. As the 4 core academic areas will only be covered once a week, it is extremely important for students to meet with the tutor on the assigned date.

C) Homework

- 1) Homework is an integral part of education. It should be relevant and timely. All assignments will be graded or evaluated. This will help the teacher to determine whether a concept requires re-teaching.
- 2) The amount of homework to be given is dependent upon the grade level as well as the subject matter. The following is offered as a guideline.
 - a) K - 3 - 0-30 minutes nightly
 - b) 4 - 6 - 30 - 60 minutes nightly
 - c) 7 - 8 - 1 - 1.5 hours nightly (total of all classes)
 - d) 9 - 12 1 - 2 hours nightly (total of all classes)
- 3) Homework should be read, checked and returned to the student. It should contribute to his/her grade. Homework for homework's sake is unacceptable. Students should have homework only when it is appropriate.
- 4) Posting
 - a) All teachers will be expected to post their class / homework assignments on the district's "Homework Page." If there is no homework expectation for a specific date, an acknowledgement of that fact should be written to the homework directory.
 - b) Access to the homework page will be through the computer "Desktop." Each teacher will have separate directory on the Homework page. Assignments are expected to be current for the school day as of 8:00 am. In this manner, as students need homework information throughout the day, it will be available. At 3:55 pm each day, the technology coordinator will copy the homework page to the district's web page (<http://www.charlottevalley.org>) to allow for post-school access through the internet.
 - c) On the first day of school, the technology coordinator will provide a brief staff development exercise to address the homework posting process.

Elementary Homework

Homework will be assigned to reinforce subject related skills being covered during class time. Students will usually have some type of homework Monday through Thursday and sometimes on Friday. Homework assignments in Grades 5-6 will be coordinated among Professional Staff Members on a weekly basis and will not be unrealistic in length.

Each student will be responsible for an assignment sheet, so that students and parents will be informed of class work the student has covered and is responsible for completing. Parents are encouraged to check these on a regular basis.

Students will not be given a grade for a subject until all homework assignments are complete. If a student continually fails to complete homework assignments, he or she will receive an incomplete on their report card. The completion of homework is an essential part of the child's skill development - namely, one of promoting responsibility for tasks assigned. Accomplishing this on a regular basis is essential for success.

Students in Grades 5-6 are also given a study period in which students may seek extra help, work on assignments and organize supplies and materials for the next day.

Fifth and Sixth Grade

To promote responsibility and organization the fifth and sixth grade team has instituted the following procedure regarding homework and classroom behavior: Students that do not return homework assignments on the day on which they are due, by 8:10 am, will receive an after school detention that same day. Students will be required to call their parents in the morning when it is determined that the homework has not been completed and explain why they have after school detention.

In addition, any student that has been disrespectful or disruptive in school will also receive an after school detention. After school detention will be until 4:30 pm that afternoon. At that point students will be provided a ride home on the late bus or parents will have the option of picking students up at 4:30. If direct contact is not made with the parent, and a message is left, parents must acknowledge that their child is attending after school detention by contacting the school no later than 2:30pm. If parents have not contacted the school with acknowledgement, the student will be held for detention the next school day afternoon.

In the case of a household emergency that prevents homework completion, a parental note must be submitted in place of the missing homework assignment. We appreciate your cooperation to instill the importance of responsible work habits and courteous, respectful behavior.

D) Marking-Elementary

- 1) CONFERENCES / PARENTS
Parent conferences will be scheduled during the year to allow teachers and parents to discuss the student's progress. The conference dates for Grades K-6 are early release days that allow for parents to meet with teachers during the afternoon. The specific dates are listed under #5 of this section.
- 2) GRADE REPORTING (Grades 1-6)
 - a) Reports cards will be issued every ten weeks.
 - b) A five-week progress report will be sent home for each student.
- 3) HONOR ROLL - GRADES 4-6
 - a) Student achievement will be recognized by their placement on the Honor Roll. Eligibility is based on marking period averages. The honor rolls are:
 1. Honor Roll - Students must achieve an 85.0 average (rounded off to the nearest whole number) during the marking period.
 2. High Honor Roll - Students must achieve a 90.0 (rounded off to the nearest whole number) average during the marking period.
 3. Principal's List - Students must attain at least a 95.0 average (rounded off to nearest whole number) for the marking period.

- b) Classroom teachers are responsible for turning honor and high honor roll ranking in to the Guidance Office at the end of each marking period.
- 4) GRADES Pre-K and K
Progress reports will be issued four times during the year for kindergarten students. Reports will be issued in November, January, April and June.
- 5) MARKING PERIODS

5) Elementary Retention Guidelines

It sometimes is in the best interest of a student to be retained an additional year at the same grade level. This is often a difficult decision making process. Thus, in an effort to devise a policy and set of procedures that will provide for the best possible outcomes, the following guidelines are being put in place:

a) Objectives for Retaining

The purpose of retaining a child is to provide the child with a second chance for a successful educational experience that, hopefully, will assist the child in their efforts to achieve future academic success. The following retention objectives will become the focus of the child's instruction during his/her second year at the same grade level:

1. Unless there are extraordinary circumstances, as documented and reviewed by the principal, a child will only be retained once in grades PreK through 6.
2. Provide the child with an opportunity to achieve an adequate working knowledge of material at his/her grade level in order that he/she may deal more successfully with what he/she must face at the next level.
 - a. Non-graded remedial reading program with the reading specialist.
 - b. A tutoring program conducted by students in the higher elementary grades.
 - c. Volunteer parent tutoring programs.
 - d. Early use of speech therapist.
3. To provide the child with a sound emotional and social adjustment through the enjoyment of a wide range of successful experiences in social and academic achievements.
 - a. Counseling with appropriate staff.
 - b. Testing programs that will indicate progress at regular intervals.
 - c. Special non-graded Art program and/or Family Consumer Science programs

b) The following considerations will be taken into account in evaluating children for possible retention by the evaluating team:

1. Insufficient individual growth
 - a. Has the child made sufficient effort to contribute toward his/her own learning?
 - b. Has the child accepted personal responsibilities for his/her grade level?
 - c. Is the child socially mature enough to work and play with his/her peers?
2. Academic Achievements - the child will be evaluated in accordance with his/her performance level.
 - a. Has the child made a reasonable amount of progress in reading and math?
 - b. Can the child follow directions with a reasonable amount of accuracy for their grade level.
 - c. Can the child be depended on to follow through on a task?
 - d. Can the child be trusted to carry on tasks unaided?
3. Serious consideration will be given to the class the child will be placed in during the next year:
 - a. Will there be a physical compatibility with classmates?
 - b. Will class size be beneficial to his/her success?
 - c. Will there be opportunity for remedial help?
 - d. Will there be opportunity for individual counseling?

c) General retention assumptions:

- a. All grade retention recommendations are made by classroom teachers and other professional staff members.
- b. All grade retention decisions are made by the principal as the initial retention authority rests solely with the principal.

d) General Retention Procedures

1. In order to provide time for adequate consideration, the classroom teacher and/or potentially another professional staff member will notify the principal, in writing by the end of the 2nd marking period, regarding any child(ren) who is/are being considered for retention.
2. During the month of February, the teacher / other professional staff member will schedule an initial meeting with the parent(s) of any child(ren) being considered for retention. The teacher / other professional staff member will be responsible for compiling a file of work samples, test performance data, and a review of behavioral performances in anecdotal form. Records of past parent / teacher / other professional staff member conferences will also be useful at this meeting.
3. By the end of the first full week of May, a final parent conference will be held. The purpose of the conference is to inform the parent of the teacher / professional staff member's final retention recommendation to the principal.

4. By the end of the third full week of May, the final teacher / other professional staff member recommendation regarding retention will be submitted in writing to the principal with copies to the parent(s).
 5. The principal will render a detention decision, in writing, to the parents by the end of the 1st full week in June.
- e) Appeal Process
- a. Stage 1
In the event that parents wish to appeal the retention decision beyond the Principal, they must initially appeal the decision, in writing, to the superintendent on or before July 1st. The superintendent will render a decision in writing by July 20.
 - b. Stage 2
In the event that parents wish to appeal the retention decision beyond the Superintendent, they may submit their appeal, in writing, to the Board of Education (BOE) on or before August 8th. The eventual hearing will be convened at the second BOE meeting in August when the BOE annually sets the District tax levy.

E) Marking - Grades 7-12

1) ATTENDANCE IN CLASS

On a course-specific basis, each 7-12 teacher will be responsible for the following:

- a) Establishing rules regarding when and how assignments need to be returned to the teacher in the event that a student is absent from class,
- b) Establishing rules regarding when and how missed quizzes and tests will administered,
- c) Discussing the above-referenced rules with their respective classes and
- d) Disseminating written copies of above-referenced rules to students.

2) CALCULATING GRADES

- a) Teachers should have an acceptable weighting formula for calculating report card grades. Teachers are expected to inform students regarding this formula during the first week of class.
- b) The following steps are used to calculate the final yearly grades.
 1. Full year course: (Q1 grade + Q2 grade + Mid-Term Exam + Q3 grade + Q4 grade + Final Exam) / 6
 2. ½ year course: (Q1 grade + Q2 grade + Final Exam) / 3
- c) Other grading procedures:
 1. "Rounding Off" of grades. For example, an 86.5 should be recorded as an 87. An 86.4 will be recorded at 86.
 2. Do not assign any grades higher than 100.
 3. Grades of 50 or below: These grades will be recorded and averaged as a 50 during the 1st marking period. During the 2nd, 3rd and 4th marking periods, the actual grades shall be assigned.
 4. The actual numerical grade earned - no matter how low - can and should appear on all interim reports.

3) CHANGING OF GRADES

The procedure for changing a Report Card Grade is that grade changes will be handled on an individual basis through the guidance office by the school counselor. Disputes will be resolved by the principal.

4) CLASS RANK CALCULATIONS

Class ranking calculations are generated three times during a student's career at Charlotte Valley Central School. The specific times are as follows: immediately prior to the beginning of the senior year, at the end of the 2nd quarter of the senior year and immediately following the end of the senior year. The first ranking is calculated for the purposes of preparing students' transcripts. The second ranking is calculated to determine Valedictorian, Salutatorian and graduation awards. The third and last calculation is prepared to update student's transcripts following graduation.

All class rank calculations will use the weighted mean method for determining averages. The rules that will govern this procedure are as follows:

- a) All course grades, passing and failing, will be factored into the cumulative averages. The only exception will be when courses are repeated. In the case of a repeated course, the higher of the two grades will be used in the calculation.
- b) Students will be ranked based on their Cumulative Ranking Average. The formula for determining Cumulative Ranking Average shall be: The Total of all Single Course Ranking Values DIVIDED BY the Total of all Course Credits.
- c) The formula for determining a Single Course Ranking Value shall be: Course Grade TIMES Course Credit Weighting Factor.
- d) Course Credit Weighting Factors will be determined by multiplying the designated weighting factor by the amount of credit that was or could be generated by the course. Regarding the credit issue specifically, a course that counts as one unit toward graduation will be weighted twice as much as a course that counts as a .5 unit toward graduation. The weighting formula shall be as follows:

1. Courses beyond Regents level	-	110%
2. Regents and all inclusive courses *	-	105%
3. Non-Regents academic courses	-	100%
4. Vocational / Occupational Courses	-	100%

* Must include passing the appropriate Regents examination.
- e) Definitions of course types described in the preceding section are as follows:
 1. (Courses defined as "Beyond Regents Level") Several course options fall between the categories of Regents level and AP/College level. The assigned weighting factor will be 110%. The targeted courses for the 2007-2008 academic year and beyond are as follows:
 - a. Pre-Calculus
 - b. Calculus
 - c. College courses.

2. (Regents and all Inclusive Courses) All courses evaluated by a Regents examination shall be given the 105% weighting factor. Obviously, this will include single course / single Regents combinations such as American History and any of the science classes. Further, this will include courses that have contributed to the preparation for a Regents exam. For example, the English 9, 10 & 11 classes all contribute toward the preparation for the Comprehensive English Regents exam. Correspondingly, all will be eligible to receive the 105% weighting factor. This situation shall additionally apply to any foreign language Regents, the Global Studies Regents, and the Math A / Math B exams.
 3. (Non-Regents Academic Courses and Vocational / Occupational / Physical Education Courses) All BOCES occupational courses, Non-Regents academic courses, local vocational courses and home/career skills and physical education courses will be assigned a weighting factor of 100%.
- f) Averages will be carried out to the thousandth place. If there is a tie, the student with the most credits toward graduation will be ranked higher. If there is still a tie, the person with the highest final exam average will be ranked higher.
 - g) Where transfer grades are accepted from another school and are compatible with our grading system, they will be included for class rank. Grades that are not compatible with our grading system (such as pass/fail, satisfactory/unsatisfactory, etc) and cannot be incorporated into class rank calculations will not be used. A person in such a situation will have a class rank based on grades that are compatible and/or are earned here at Charlotte Valley Central School.
 - h) (Computation of the cumulative weighted average.) The procedure for determining weighted averages shall be as follows:
 1. Actual grades in each class will be calculated in the customary manner.
 2. The grade will then be multiplied by the weighting factor to develop the weighted course grade (WCG).
 3. The WCG will then be multiplied by the credit value to determine weighted course value (WCV).
 4. All WCVs shall be totaled.
 5. All credits shall be totaled.
 6. The cumulative weighted average shall be the total of the WCVs divided by the total accumulated credits.
 - i) The weighted average will appear on a student's transcript in the final average area.
 - j) Class rank calculations for determining Valedictorian, Salutatorian and graduation awards will use the procedures described above. The only net difference is that senior course credit will be prorated. Courses, incomplete at the mid-year point, will be assigned a credit value based on the percent of completion for the class, usually 75%. For instance, in the first semester, Jane Doe is taking English 12, U. S. Government, Pre-Calculus, Physics, Spanish 4, Health and Choir. As U. S. Government finishes at the mid-year point, credit would have been earned in January. The remaining courses would be half finished. Correspondingly, prorated credit would be assigned to the courses as follows: English 12 / .5 credits, Pre-Calculus / .5 credit, Physics / .5 credit, Spanish 4 / .5 credit, Health / .25 credit and Choir / .25 credit.
 - k) In order for students to be eligible to receive Valedictorian or Salutatorian awards, they must have been in continuous attendance at Charlotte Valley Central School (or a remote CVCS sponsored program – i.e. a BOCES academy or an approved college program) since the beginning of their sophomore year. Further, they must have attended an accredited US school during their Freshman year. NOTE: Regarding an operational definition of the "beginning" of the sophomore year, the student must have been enrolled at CVCS no later than the end of the 1st 5 weeks of school.
 - l) In order for students to receive other graduation awards and recognition based on class rank, they must be in attendance at Charlotte Valley Central School during the first semester of the senior year, and have attended an accredited US school during their Freshman, Sophomore, and Junior years.
 - m) CVCS students attending college during the first semester of the senior year must petition the principal for academic recognition of their college work. The college program must be comparable in time, difficulty and substance to that of a full time student attending at Charlotte Valley Central School. In general, for a semester of college work to be considered comparable to a semester of Charlotte Valley Central School work, the student must be a full time student at the college or is enrolled in an equivalent combination of CVCS and the college classes. The determination of equivalence shall be made by the Principal or his/her designee. Grades generated from such work will be incorporated in to the ranking system as the student meets the 1st semester of their senior year requirement at CVCS.
 - n) **MARKING PERIODS**

Marking Period	Report Cards Out
09/07/2023 - 11/10/2023	11/17/2023
11/13/2023 - 01/26/2024	02/02/2024
01/29/2024 – 04/12/2024	04/19/2024
04/15/2024- 06/13/2024	06/30/2024
 - o) The following dates are ½ days of instruction for 7-12:
Staff Development ½ days - (PreK-12 Noon Dismissal):
 10/05/23, 12/21/23, 03/14/24, 05/23/24

***Parent/Teacher conference days referenced in section VII D above in November are ½ days for PreK-8 only.**

- 5) **MID-TERM & FINAL EXAMS - SECONDARY**
 - a) Grades 7 & 8 are not required to participate in either mid-term or final examinations. Their course grades are based on an average of the four marking period grades.
 - b) Grades 9-12
 1. Participation in Mid-Term and Final Exams
 Students in grades 9-12 with a 95 or better average in either:
 - The preceding two (2) quarters of a mid-term or
 - The preceding four (4) quarters of a final exam have the option of being excused from taking the respective examination(s).
 The teacher of the course will substitute the mean grade for the preceding two (2) quarters of the class for the exam grade.
 2. Exclusive of band and choir, there will be mid-term exams in all 9-12 40-week courses.
 3. Exclusive of band and choir, there will be Non-Regents Finals in all 9-12 subject areas.

4. Midterm and Final Exam schedules will be posted and distributed by the Guidance Counselor after the administration has approved them.
5. Students enrolled in courses where a Regents examination is given at the end of the year will be awarded a final exam grade for the higher of either the final or the Regents exams.
6. Except as stipulated in VII, A. above, students must take Regents exam where applicable in order to receive course credit.

6) HONOR ROLL

- a) Students' achievement will be recognized by placement on the Honor Roll. Eligibility is based on marking period averages. The honor rolls are:
 1. Honor Roll - Students must achieve an 85.0 average (rounded off to the nearest whole number) during the marking period.
 2. Principal's List - Students must achieve a 90.0 (rounded off to the nearest whole number) average during the marking period.
 3. Platinum List - Students must attain at least a 95.0 average (rounded off to nearest whole number) for the marking period.
- b) In any of the courses they take in which letter grades are given, students must have no mark lower than a "C".

7) HONOR ROLL CALCULATIONS

Teachers are not responsible for secondary honor roll calculations as the e-Student software accounts for that calculation. The details associated with honor roll calculations are as follows:

- a) The Honor Roll will be based on marking period grades only. Midterm and final exams will not be included in 2nd and 4th marking period honor roll calculations.
- b) When an incomplete is received, students will not be eligible for Honor Roll until the incomplete grade is cleared.
- c) Weighting
 1. Courses that meet 5 days per week during a marking period are weighted once.
 2. Courses that are graded numerically and meet every other day are weighted half.
 3. BOCES is weighted two and a half times.
 4. Courses in which a letter grade is given are neither weighted nor included in the calculation. However, they will be counted toward the Honor Roll in that a student must receive a minimum of "C" for all such courses.

d) Sample Honor Roll Calculation

Course	Avg.	Weight	Weighted Average
English 10	88	1	88
Soc. St. 10	91	1	91
Math 10	85	1	85
Biology	89	1	89
Health	90	.5	45
Phys Ed	A	.5	45
		5	443

$$443/5 = 88.6 = 89.00$$

e) Letter Grade Conversion

Letter grades earned through college course work, or while in attendance at another high school will be converted to our marking system using the following conversion table.

Letter Grade	Numeral Equivalent
A+	97.5
A	95
A-	92.5
B+	90
B	87.5
B-	85
C+	82.5
C	80
C-	77.5
D+	75
D	72.5
D-	70
F	0

8) INCOMPLETE GRADES

- a) When a student is absent due to an illness or other legal reason, and is unable to complete work in a timely fashion, an incomplete report card grade may be given.
- b) A student will have 10 school days from the end of the marking period to complete any missing work. Tests, quizzes, or other work not completed within the 10 day time limit will be graded "0".
- c) On the 11th day, teachers must report to the guidance office to record a numerical or letter grade on the report card and marking sheet.

9) PASSING GRADES FOR A COURSE

- a) The minimum passing grade will be 70. No 69's will be used. A 69 as a final grade will be recorded as a "Circle 70."
- b) The grades for each marking period are based on the evaluation of tests, quizzes, projects, homework, reports, notebooks, journals, lab activities, class participation, attitude, and effort. Grades for each marking period shall be calculated based on 50% test and quiz average and 50% homework, class participation, attitude, and effort.

- c) Granting credit for Regents courses. A Regents course of study involves class attendance, homework assignments, quizzes, tests, and other activities, as well as the Regents examination. All students enrolled in a Regents course must take the Regents examination to be eligible for course credit. When deciding whether or not a pupil who is enrolled in a Regents course of study has satisfactorily completed the course of study and is entitled to a unit of credit, the teacher should evaluate the pupil's performance on all of these activities. The granting of credit should not be based on the Regents examination score.
- d) Students who fail a course required for graduation will be encouraged to repeat the course in an approved summer school program. If a student repeats a course, both grades will appear on the transcript. The higher grade of the two courses will be used for the purpose of computing the GPA.
- e) Students in grades 9-12, who have previously failed any full-year course other than math and choose to repeat the course at CVCS, may earn credit by achieving a cumulative average of 70. The average will be calculated using the 1st and 2nd quarter grades from the current year and the mid-term.

10) **PROGRESS REPORTS**

Progress reports are sent out mid-way through each quarter for 7-12. However, teachers are encouraged to send out progress reports at any time. Progress reports are required for all seventh and eighth grade students, Special Ed. students, new students, Alternative Ed. students and students currently failing or in danger of failing the course.

11) **PROMOTION**

- a) The Junior High Promotion Committee will determine promotion from 7th to 8th grade and from 8th grade to 9th grade. The committee will also consider students for acceleration with regard to individual disciplines. This committee will be comprised of the Guidance Counselor, Principal, and teachers who teach Junior High classes. Criteria used in making promotion decisions will be academic achievement, social factors, effort, potential for success and other pertinent factors.
- b) In order to be promoted from 7th to 8th grade and 8th to 9th grade, a student must pass three of four major areas of study: English, Math Social Studies, and Science. If a student fails two or more major courses, the student must attend summer school or obtain tutoring approved by the CVCS administration. (See special summer school/tutoring requirements, which follow.) If deficiencies are not made up during the summer, the student repeats 7th or 8th grade in the fall.
- c) In high school grades the number of credits earned each academic year determines promotion. The criterion for high school promotion for the school year is as follows:

FROM GRADE	TO GRADE	CREDITS
09	10	5
10	11	11
11	12	17
12	Graduation	22

- d) Summer School Requirements - A student who has failed a specific required subject during the regular academic year may conditionally repeat that subject by enrolling in, and successfully completing, an accredited summer school course.
- e) The prioritized choices for summer school courses are as follows:
 - 1. Grades 9-12
 - a. English
 - b. Social Studies
 - c. Math
 - d. Science
 - 2. Grades 7-8
 - a. English
 - b. Math
 - c. Social Studies
 - d. Science

Prior to enrollment approval by the Principal or his designee is required.

Enrollment in, and successful completion of, a Summer Tutorial is a second option only if there are extenuating circumstances (i.e. extreme illness). The Principal prior to the start of the study must approve the tutorial. The Principal will only approve a tutorial plan that guarantees:

- 1. 30 hours of instruction by a teacher certified in the subject to be taught.
- 2. A "Tutorial Contract for Summer Credit" signed and agreed to by the student, the teacher, the parent and the Principal prior to beginning study.
- 3. A portfolio of student work that demonstrates the student's successful completion of the course of study outlined in the "Tutorial Contract for Summer Credit."

The Principal can refuse credit if, at the end of the tutorial, the student has not satisfactorily met the requirements set out in the "Tutorial Contract." This decision will be based on the student's portfolio and is solely the responsibility of the High School Principal.

- f) If there is any question as to the appropriateness of a student's participation in a summer tutoring program, the parent may appeal the case to the Superintendent of Schools.

12) **REPORT CARDS**

Ten-week grades are determined by using various evaluative criteria such as quizzes, unit tests, reports, homework, class participation, etc. A minimum of 10 - 12 quiz and test grades should be used in calculating the grade. An average of one-two quizzes/exams should be given each week.

13) **TYPES OF GRADES**

- a) Number grades will be assigned in all academic classes. This grade not only reflects the average of quiz and test grades; it indicates effort, attendance, and class participation.
- b) In order to further refine the number grade an effort comment will also be assigned. This effort comment reflects class attendance, participation, working up to potential, and behavior. Effort comments will range from outstanding to unacceptable or conference requested.
- c) The minimum grade that can be recorded in the 1st of a full year course is a 50 in grades 7-12. (The minimum grade that can be recorded in the 1st quarter of a ½ year course is 50. The minimum grade that can be recorded in the 1st quarter for a transfer student is a 50. Exceptions will be made only with the Principal's approval.

F) Special Situation Information and Guidelines

1) Independent Study Enrollments

Enrollment in an independent study (IS) class is a student privilege not a right. Students participating in IS classes are expected to adhere to the class responsibilities in a mature and adult manner. The guidelines for enrollment in IS courses are as follows:

- a) An interested student will first meet with the school counselor to solicit preliminary approval for enrollment in an IS class.
- b) If the IS class is new, the principal must also approve the curriculum.
- c) Once the school counselor has approved enrollment and the principal has approved the curriculum, the student will be given a form for their parent(s) and appropriate secondary teacher to complete.
- d) If the targeted secondary teacher does not believe that the IS course is appropriate for the student in question (s)he will meet with the school counselor, and potentially the principal, to discuss his/her concerns
- e) Once the counselor and teacher agree (and principal if the course is a new course) to the student's enrollment in an IS class, the counselor will arrange to enroll the student in the student records management program. Please note until that enrollment has been completed, the IS class does not exist.
- f) Once enrollment is complete, the student and teacher will be notified.
- g) Disputes regarding any aspect of a student's enrollment in an IS class will be resolved by the building principal.

2) Multiple Enrollments of Courses within the Same Area

Students who have failed a class in any academic area, will be permitted, if the schedule allows, to concurrently enroll in that class and the next higher level class in the same area.

a) Conditions

This shall occur based on the following:

- 1. Only two such enrollments for any subject area shall occur at the same time (i.e. a student will not be permitted to enroll in English 9, 10, and 11).
- 2. They have the joint permission of the teacher and the guidance counselor. The building principal will arbitrate any mixed decision.
- 3. There will be no concurrent, multiple-level enrollments in mathematics.
- 4. Students will be permitted to take a comprehensive final exam to "test out" the lower level course at the mid-year point in the 2nd year (70 average only).

b) Exceptions

- 1. Continuous concurrent enrollment in English 11 and 12 will be permissible if the student has the potential to graduate.
- 2. Continuous concurrent enrollment in Social Studies 11 and Economics or Government will be permissible.
- 3. Continuous concurrent enrollment in two courses where there was no prior failure of a lower level course (i.e. in the 07/08 school year - social studies 11 and a distance learning class (DLC) in a social studies elective or English 12 and a DLC in an English literature elective).

G) Standards

It is important that we establish and maintain consistent standards. Your help and input in this area are needed. Please help with the following:

- 1) Test Taking - Establish a tone that gives credibility to the task in which you are involved. Don't allow talking or any other form of disruptive behavior.
- 2) Cheating - Enforce the no cheating rule both in test taking and with homework.
- 3) All written work should follow a standardized format. Papers should have headings, which include name, assignment, and date, and they should be neat. Don't accept papers that have been torn from notebooks.
- 4) Every teacher is responsible for basic skill instruction as it relates to the grade and content area including outlining, note taking, listening skills, study skills and general organizational skills.

H) Testing Schedules

The school counselor will prepare schedules for special test situations. Examples include: June final exams, Regents exams, state assessments, etc. Prior to the administration dates, the appropriate schedules will be disseminated to the staff.

I) Guidance Dates and Information

1) Deficiency / Failure Procedure

Students who are not in good academic standing are not permitted to participate in extra-curricular and/or co-curricular activities. To address academic shortcomings, deficiency / failure procedure has been established to assist students in their efforts to overcome their academic shortcomings and thus continue to be eligible for extra-curricular and/or co-curricular participation. The following sections outline the important provisions of the deficiency / failure procedure:

a) Definitions

No drops or adds shall be made until all the necessary signatures are obtained within the required time period. All students are required to carry a minimum of six units of credit per semester.

Distance Learning

College courses are available over the Distance Learning network during the school year. For the most current list of courses available, see the Guidance Counselor.

Principal's List	90% or higher average

- a) Scholarship (90%) cumulative average or above.
- b) Service to the school and community.
- c) Leadership in the school and community.
- d) Character.

At the appropriate time during the school year, staff will be asked to comment on the non-academic qualifications of prospective honor society candidates.

XI. EXTRACURRICULAR ACTIVITIES

A wide variety of extracurricular activities are available to students, grades 7-12 at Charlotte Valley Central School. These include: Art Club, Bowling Club, Drama Club, GAA, Honor Society, Key Club, Library Club, Math Honor Society, Prom Committee, Safety Patrol, Student Council, SADD, Varsity Club, and Yearbook. Students are encouraged to become involved in extracurricular activities. For more information, see the Guidance Director or appropriate club advisor.

A) ELIGIBILITY FOR PARTICIPATION IN SCHOOL EXTRA-CURRICULAR AND CO-CURRICULAR ACTIVITIES

A student who is academically ineligible, absent or who has been suspended out of school will not be allowed to participate in or attend any school activity during the suspension period. This includes weekends and vacations.

A student, who is tardy prior to 10 a.m., generally will be allowed to participate in after-school or evening extracurricular activities or functions. Tardiness later than 10 a.m. generally precludes such participation. Attendance on Friday is necessary for participation in a weekend school activity.

B) SPORTSMANSHIP AND SPECTATOR CODE OF CONDUCT

Interscholastic athletic contests must be conducted in a proper, orderly climate in order to attain the desired educational outcomes. The Charlotte Valley Central School Board of Education and administration support the New York State Public High School Athletic Association, Section IV, and the Delaware League Sportsmanship and Athletic Codes. As such, the following ideas apply:

- 1) Coaches, school personnel, athletes, and spectators are expected to be sportsmanlike when they are representing the District in an athletic contest. Such actions as taunting, jibes, vulgar language, gestures, or any other disrespectful acts or attitudes are unacceptable at any time.
- 2) Coaches are expected to follow the Code of Ethics established by these organizations. School officials, in turn, will enforce rules and regulations regarding spectators and spectator actions.
- 3) An athlete expelled from a league or non-league contest for unsportsmanlike conduct will be subject to section, league, or school penalty. Penalties imposed may be punishment to its own students, coaches, or staff officials.
- 4) A spectator may be denied the privilege and invitation from attending athletic contests for actions referred to above if such actions are directed towards coaches, school personnel, athletes, game officials, or other spectators.
- 5) The Superintendent of Schools, Principal, or his/her designee is authorized to take all necessary steps to implement such standards of conduct for all interscholastic athletic contests consistent with the athletic policy and the School Code of Conduct.

We appreciate your cooperation in displaying enthusiasm for our Wildcats and Lady Wildcats, while maintaining sportsmanlike conduct.

XII. TEACHER CONFERENCE / STAFF DEVELOPMENT DAYS

Throughout the year, there may be scheduled parent /teacher conferences or teacher conference days which may require a half or whole day with no student attendance. Half-day parent/teacher conferences and staff development days typically involve a noon dismissal, and students are provided lunch prior to dismissal.

Written notices regarding such days will be backpacked home to Pre-K – 6. Please also check the back of the monthly school menu for notices of such conferences. In most cases, such early dismissals or non-student attendance days are also listed on the sign in front of the school.

Parent(s) or person(s) in parental relation must notify the main office by 11 a.m. if alternate bus arrangements are necessary on such half days of instruction (for example, you may arrange for your child to go to a babysitter or grandparent that afternoon).

XIII. EMERGENCY PROCEDURES, DRILLS ETC. – (As excerpted from the “CVCS District-Wide Emergency Preparedness Plan”)

A) BELL and NO BELL PROCEDURES

All building drills will be initiated in either of two ways **and are to be conducted with no talking unless specified.**

- 1) Conventional Procedure - Obviously, the conventional method of evacuating the building by sounding the fire alarm will be used as the primary method for students and staff to leave the building. This method will be employed most often, and in the customary manner, for building evacuations (fire drills).
- 2) “No Bell” Procedures - A second “no bell” method will also be used to initiate a building evacuation. It will be needed in those instances where the fire alarm system is not functional or, for alternate reasons, cannot be employed. The “No Bell” procedures will be outlined in Sub-section E of this document.

B) Crisis Team

Pursuant to the provisions of the revised District-Wide Safety Plan, certain protocols will immediately be put in place to address various crises that present themselves. Part of that process is the determination as to whether or not to activate the District’s Crisis Team. It will be activated at times of significant emergencies and will be responsible for coordinating the district’s response to various crises. The following individuals have been approved as the 2023-2024 members of the district’s crisis team:

<u>Team Member</u>	<u>Title</u>	<u>Team Responsibility</u>
Davis, Christine	Principal	Internal Communications 1
Plante, Jennifer	Mgmt. Confidential Secretary	Internal Communications 2
Whipple, Eric	Superintendent	External Communications 1
Rider, Troy	Treasurer	External Communications 2
Butler, Cheryl	Athletic Director	Staff Services Liaison 1
Hildebrandt, Robert	School Counselor	Parent Services Liaison
Losie, Christina	School Nurse	Team Recorder
Moller, Paul	Director of Facilities II	Security Coordinator
Jones, Matt	Elementary Teacher	Staff Services Liaison 2

C) Delayed Openings / Closings

- 1) After discussion with appropriate personnel regarding the status of the road conditions, the superintendent will determine if a delayed opening or school closing is appropriate.
- 2) Following his/her determination regarding a delay or school closing, the superintendent will contact the principal. In turn, the principal will activate the phone tree ("Snowflake List" used for all school closings and delays) so as to inform staff regarding the delay or closing decision. NOTE: An updated "Snowflake List" will be disseminated as soon as possible after the beginning of the school year.
- 3) If for some reason there are communication problems to the extent that a staff member does not receive a call regarding a delay or closing, the information is also communicated to the media. Listen for announcements on the television and radio stations cited on the "Snowflake List." NOTE: If for some reason, your name is not included on the snowflake list, please contact Mrs. Natalie Zimmerman in the business office.
- 4) On the days when there are delays, follow the alternate schedule times as outlined in the bell and lunch schedule sections of the handbook.

D) Emergency Building Evacuation / "Fire Drill"/ Safety Drills

Due to the sensitive nature of the information, the evacuation and drill procedures will no longer be posted in the handbook. This decision was made upon the recommendation of the New York State Police and for the safety of all CVCS students.

E) Emergency In-Session Closing Of School

When an emergency situation occurs such that students must be sent home during the school day (i.e. storm warnings, flooding, etc.) a regional notice will be received in the Superintendent's Office. At that time, the superintendent, or his designee, will determine if students should be transported home before the customary end of the school day. If the decision is to close school, the following steps will be taken:

- 1) The Principal will notify the transportation supervisor in order that he may call all regular drivers to bring their buses to school for immediate dismissal.
- 2) Personnel from the Superintendent's Office will contact the local television stations to make a public service announcement that school is closing.
- 3) An automated "all call" will be made to inform all parents/guardians of the situation.
- 4) An all-call announcing the school closing will be made over the PA about one hour prior to dismissal. Children who need to telephone parents will then be given the opportunity to do so.
- 5) When buses are ready, an announcement will be made over the PA that students should be dismissed and all bussed students are to report to their buses.
- 6) Faculty and staff will be given instructions for leaving the building at the time of the one-hour warning.
- 7) The Transportation Supervisor will, as soon as possible, inform the main office when all buses have returned. Office personnel will remain in the building until that communication has been received.
- 8) Children who walk home will be dismissed immediately. As the number of children who walk home is small, supervision will not be necessary. All walkers live close enough to the school so that the pupil at the farthest point can be home in five minutes.
- 9) Custodial staff will be alerted to the dismissal in order to take whatever steps are necessary to shut down the building.
- 10) All staff members are expected to know and understand this plan. Any questions should be directed to the Principal and/or Superintendent.

XIV. LIBRARY

The Charlotte Valley Central School library is fully automated and offers a wide range of instructional resources and materials for student and potentially future community use.

Students are encouraged to take advantage of the resources and media available. The library strives to support the curriculum, encourage personal and academic development, and foster a love of reading. Students are expected to be quiet at all times while in the library. Please respect those around you who are studying or doing research in our library.

XV. LOCKERS

The Charlotte Valley Central School District provides hallway and gym lockers for student use grades 5-12. The lockers are for storage of outer clothing and textbooks. The lockers are the property of the Charlotte Valley Central School. The rules in the Code of Conduct regarding searches of students and their belongings do not apply to student lockers, desks, and other school storage places. Students have no reasonable expectation of privacy with respect to these places and school administration retains complete control over them. This means that student lockers, desks, and other school storage places may be subject to search at any time by school officials, without prior notice to students and without their consent.

Although outer locks secure the lockers, students are advised and encouraged not to store personal valuables in individual lockers. The administration also advises students not to share their locker combinations with other students. Students are not permitted to share lockers with other students, unless assigned by administration. The school is not responsible for loss of valuables from lockers due to theft. Only school-issued locks may be used on school lockers.

Students may go to lockers when the first bell has sounded and during the change of regular classes. Students should plan properly to have books and other materials with them for classes. Students are not to go to their lockers during instructional time since this interrupts valuable instructional time and since opening and closing lockers disrupts adjoining classes in progress. The bell schedule includes three-minute passing times to accommodate student needs. Please plan accordingly. With proper planning, it may not be necessary for you to go to your locker every period of the day.

XVI. STUDENT PARKING

Charlotte Valley Central School provides parking privileges to a limited number of high school students who meet the following guidelines. Student drivers must:

- Annually complete an application for driving privileges;
- Possess a New York State Senior Class D Driver's License (it is illegal for students possessing a Junior Class D Driver's License to drive to school);
- Have regular access to a properly registered, inspected, and insured vehicle;
- Maintain acceptable attendance and disciplinary standards;
- Complete and return a signed student driver agreement;

Student parking on school property is for authorized vehicles only, in designated areas only. Students who drive to school without authorization create a hardship for everyone. Students who drive to school without authorization will be subject to disciplinary action and/or having the vehicle towed at the owner's expense. The administration reserves the right to revoke the driving privilege of any student who drives recklessly on or near school property.

XVII. STUDY HALLS

In keeping with our philosophy that instructional time should be maximized for all students, every effort will be made to avoid assigning students to more than one study hall a day. Study hall is a time for academic work.

The following policies are intended not to stifle you, but rather to insure that you have a quiet atmosphere in which to study. Students without homework are encouraged to read a magazine or book. Please respect other students' rights to study and do research in the library or other assigned study hall location.

- Students are to be in the room and in their assigned seat when the bell rings.
- The period is to be used for schoolwork. This may include the reading of books, magazines, or newspapers.
- Students are to bring work with them. They will not be excused to their lockers to get forgotten work.
- There is to be no sleeping in study hall.
- Talking is permitted only with the permission of the Study Hall Monitor.
- When the study hall is not in the library, students with Library passes will be dismissed to the Library from study hall only after attendance has been taken and at the discretion of the Study Hall Monitor. Only 5 students will be released to the Library.
- A limited number of computers are available in the library for student use or research. Please respect the right of everyone to use the computers. The librarian or teachers reserve the right to limit computer use should a conflict arise. The computer lab may also be used with supervision.
- Only academically eligible students would be issued passes from study hall.

XVIII. CAFETERIA

The school cafeteria serves breakfast and lunch daily. The Food Services Program strives to provide a variety of foods that are nutritionally balanced. No foods are to be taken out of the cafeteria.

A) Breakfast Program

Breakfast is served from 7:45 through 9:00 a.m. daily. Upon arrival to school, students may proceed directly to the cafeteria for breakfast. Secondary students should purchase and consume breakfast by 8:05 a.m. Should late bus arrival prevent a student from obtaining breakfast

before first period, he or she may request a pass to breakfast from his or her first or second period teachers. This privilege should not be abused.

B) Paying for Meals and Snacks

Students will be assigned a cafeteria payment account. The number will be used to make all meal or snack transactions in the cafeteria. Should a student's account fall into a negative balance, he or she shall be permitted to charge meals only. This should only be done in an emergency and the privilege should not be abused. Many schools do not allow charging at all. Students are not permitted to charge snacks. Account balances must be paid in full weekly.

Student misbehavior in the cafeteria will result in appropriate disciplinary action as outlined later in this handbook or the Code of Conduct.

XIX. TELEPHONE USE

The school telephone cannot be used for non-emergency student phone calls. Students will be permitted to use the school phone only in an emergency situation.

XX. STUDENT REPRESENTATION

A) Student Council

The student council has been designed to facilitate communication between the students, teachers, administration, and the Board of Education. The student council is to represent students, who will have a voice in decisions concerning curriculum, school policy, activities, social events, student welfare, student conduct, and other factors of school life.

The council will operate on the premise that all persons within the school community have rights and responsibilities. Through communication and open discussion, as well as mutual respect, the council seeks to work for the improvement of Charlotte Valley Central School. The student body elects student council representatives annually in accordance with the organization bylaws.

V. STUDENT DRESS CODE

All Charlotte Valley Central School District students are expected to give proper attention to personal cleanliness and to dress appropriately for school and school functions. Students and their parents have the primary responsibility for acceptable student dress and appearance. Teachers and all other District personnel should exemplify and reinforce acceptable student dress and help students develop an understanding of appropriate appearance in the school setting. The dress code will be administered at the discretion of the CVCS staff. Individuals will be dealt with on a case-by-case basis.

A student's dress, grooming and appearance, including hair style/color, jewelry, make-up, and nails will:

- A) Be safe, appropriate, and provide coverage so as not to disrupt or interfere with the educational process.

Students who violate the student dress code will be required to modify their appearance by covering or removing the offending item and, if necessary or practical, replacing it with an acceptable item. Any student who refuses to do so will be subject to discipline up to and including in-school suspension for the day. Any student who repeatedly fails to comply with the dress code will be subject to further discipline, up to and including out-of-school suspension.

VI. PROHIBITED STUDENT CONDUCT

The Board of Education expects all students to conduct themselves in an appropriate and civil manner, with proper regard for the rights and welfare of other students, District personnel and other members of the school community, and the care of school facilities and equipment.

The best discipline is self-imposed, and students must learn to assume and accept responsibility for their own behavior, as well as the consequences of their misbehavior. District personnel who interact with students are expected to use disciplinary action only when necessary and to place emphasis on the students' ability to grow in self-discipline.

The Board recognizes the need to make its expectations for student conduct while on school property or while engaged in a school function specific and clear. The rules of conduct listed below are intended to do that and focus on safety and respect for the rights and property of others. Students who will not accept responsibility for their own behavior and who violate these school rules will be required to accept the penalties for their conduct.

VII. REPORTING VIOLATIONS

All students are expected to promptly report violations of the code of conduct to a teacher, guidance counselor, the building principal, or his or her designee. Any student observing a student possessing a weapon, alcohol or illegal substance on school property or at a school function will report this information immediately to a teacher, the building principal, the principal's designee or the superintendent.

All District staff members who are authorized to impose disciplinary sanctions are expected to do so in a prompt, fair, and lawful manner. District staff members who are not authorized to impose disciplinary sanctions are expected to promptly report violations of the code of conduct to their supervisor, who will in turn impose an appropriate disciplinary sanction, if so authorized, or refer the matter to a staff member who is authorized to impose an appropriate sanction.

Any weapon, alcohol or illegal substance found will be confiscated immediately, if possible, followed by notification to the parent of the student involved and the appropriate disciplinary sanction if warranted, which may include permanent suspension and referral for prosecution.

The building principal or his or her designee must notify the appropriate local law enforcement agency of those code violations that constitute a crime and substantially affect the order or security of a school as soon as practical, but in no event later than the close of business the day the principal or his or her designee learns of the violation. The notification may be made by telephone, followed by a letter mailed on the same day the telephone call is made. The notification must identify the student and explain the conduct that violated the code of conduct and constituted a crime.

VIII. DISCIPLINARY PENALTIES, PROCEDURES, AND REFERRALS

Discipline is most effective when it deals directly with the problem at the time and place it occurs, and in a way that students view as fair and impartial. School personnel who interact with students are expected to use disciplinary action only when necessary and to place emphasis on the students' ability to grow in self-discipline.

Disciplinary action, when necessary, will be firm, fair, and consistent so as to be the most effective in changing student behavior. School personnel authorized to impose disciplinary penalties will consider the following when determining appropriate disciplinary action: (1) the student's age; (2) the nature of the offense and the circumstances that led to the offense; (3) the student's prior disciplinary record; (4) the effectiveness of other forms of discipline; (5) information from parents, teachers and/or others, as appropriate; and (6) other extenuating circumstances.

As a general rule, discipline will be progressive. This means that a student's first violation will usually merit a lighter penalty than subsequent violations.

If the conduct of a student is related to a disability or suspected disability, the student will be referred to the Committee on Special Education and discipline, if warranted, will be administered consistent with the separate requirements of this code of conduct for disciplining students with a disability or presumed to have a disability. A student identified as having a disability will not be disciplined for behavior related to his/her disability.

A) Range of Penalties

Students who are found to have violated the District's code of conduct may be subject to the following penalties, either alone, or in combination. The school personnel identified after each penalty are authorized to impose that penalty, consistent with the student's right to due process.

- 1) Oral warning - any member of the District staff.
- 2) Written warning - bus drivers; hall, lunch, recreation, disciplinary or other monitors or aides; coaches; guidance counselors; teachers; athletic director; dean of students; principal; superintendent.
- 3) Written notification to parent - bus driver; hall, lunch, recreation, disciplinary or other monitors or aides; coaches; guidance counselors; teachers; athletic director; dean of students; principal; superintendent.
- 4) Detention - teachers, dean of students, principal, superintendent.
- 5) Suspension from transportation - principal, superintendent.
- 6) Suspension from athletic participation - coaches, athletic director, principal, superintendent.
- 7) Suspension from social or extracurricular activities - activity advisor or director, dean of students, principal, superintendent.
- 8) Suspension of other privileges - dean of students, principal, superintendent.
- 9) In-school suspension - principal, superintendent.
- 10) Removal from classroom by teacher - teachers, principal.
- 11) Short-term (five days or less) suspension from school - principal, superintendent, Board of Education.
- 12) Long-term (more than five days) suspension from school - principal, superintendent, Board of Education.
- 13) Permanent suspension from school - superintendent, Board of Education.

B) Procedures

The amount of due process a student is entitled to receive before a penalty is imposed depends on the penalty being imposed. In all cases, regardless of the penalty imposed, the school personnel authorized to impose the penalty must inform the student of the alleged misconduct and must investigate, to the extent necessary, the facts

surrounding the alleged misconduct. All students will have an opportunity to present their version of the facts to the school personnel imposing the disciplinary penalty in connection with the imposition of the penalty.

Students, who are to be given penalties other than an oral warning, written warning, or written notification to their parents, are entitled to additional rights before the penalty is imposed. These additional rights are explained below.

1) Detention

Teachers, principals, and the superintendent may use detention as a penalty for student misconduct in situations where removal from the classroom or suspension would be inappropriate. Detention may be in-school detention during lunch or recreation or after-school detention. After-school detention will be imposed as a penalty only after the student's parent has been notified to confirm that there is no parental objection to the penalty and the student has appropriate transportation home following detention.

2) Suspension from Transportation or from Driving Privileges

If a student does not conduct himself/herself properly on a bus, the bus driver is expected to bring such misconduct to the building principal's attention. Students who become a serious disciplinary problem may have their riding privileges suspended by the building principal or the superintendent or their designees. In such case, the student's parent will become responsible for seeing that his or her child gets to and from school safely. Should the suspension from transportation amount to a suspension from attendance; the District will make appropriate arrangements to provide for the student's education.

Eligible students' driving privileges may be suspended to the extent that they may not be allowed access to the school's parking facilities or to drive to various permissible school venues (i.e. BOCES or School to Work sites) if they are cited for improper driving on or near school property. The preceding suspension of driving privileges may also occur, pursuant to Section IX of the document, following the issuance of excessive traffic citations.

A student subjected to a suspension from transportation or driving privileges is not entitled to a full hearing pursuant to Education Law §3214. However, the student and the student's parent will be provided with a reasonable opportunity for an informal conference with the building principal or the principal's designee to discuss the conduct and the penalty involved.

3) Suspension From Athletic Participation, Extra Curricular Activities And Other Privileges

A student subjected to a suspension from athletic participation, extra-curricular activities or other privileges is not entitled to a full hearing pursuant to Education Law §3214. However, the student and the student's parent will be provided with a reasonable opportunity for an informal conference with the District official imposing the suspension to discuss the conduct and the penalty involved.

4) In-School Suspension

The Board recognizes the school must balance the need for students to attend school and the need for order in the classroom to establish an environment conducive to learning. As such, the Board authorizes building principals and the superintendent to place students who would otherwise be suspended from school as the result of a code of conduct violation in "in-school suspension." The District will make reasonable attempts to provide certified teachers to supervise in-school suspension.

A student subjected to an in-school suspension is not entitled to a full hearing pursuant to Education Law §3214. However, the student and the student's parent will be provided with a reasonable opportunity for an informal conference with the District official imposing the in-school suspension to discuss the conduct and the penalty involved.

A student's behavior can affect a teacher's ability to teach and can make it difficult for other students in the classroom to learn. In most instances, the classroom teacher can control a student's behavior and maintain or restore control over the classroom by using good classroom management techniques. These techniques may include practices that involve the teacher directing a student to briefly leave the classroom to give the student an opportunity to regain his or her composure and self-control in an alternative setting. Such practices may include, but are not limited to: (1) a short-term 'time out' in an elementary classroom, in an administrator's office, or in an in-school discipline room; (2) sending a student into the hallway briefly; (3) sending a student to the principal's office for the remainder of the class time only, or (4) sending a student

to a guidance counselor or other District staff member for counseling. Time-honored classroom management techniques such as these do not constitute disciplinary removals for purposes of this code.

On occasion, a student's behavior may become disruptive. For purposes of this code of conduct, a disruptive student is a student who is substantially disruptive of the educational process or substantially interferes with the teacher's authority over the classroom. A substantial disruption of the educational process or substantial interference with a teacher's authority occurs when a student demonstrates a persistent unwillingness to comply with the teachers instructions or repeatedly violates the teacher's classroom behavior rules.

A classroom teacher may remove a disruptive student from class for up to two days. The removal from class applies to the class of the removing teacher only.

If the disruptive student does not pose a danger or ongoing threat of disruption to the academic process, the teacher must provide the student with an explanation for why he or she is being removed and provide said student an opportunity to explain his or her version of the relevant events before the student is removed. Only after the informal discussion may a teacher remove a student from class.

If the student poses a danger or ongoing threat of disruption, the teacher may order the student to be removed immediately. The teacher must, however, explain to the student why he or she was removed from the classroom and give the student a chance to present his or her version of the relevant events within 24 hours.

The teacher must complete a District-established disciplinary removal form and meet with the principal or his or her designee as soon as possible, but no later than the end of the school day, to explain the circumstances of the removal and to present the removal form. If the principal or designee is not available by the end of the same school day, the teacher must leave the form with the secretary and meet with the principal or designee prior to the beginning of classes on the next school day.

Within 24 hours after the student's removal, the principal or another District administrator designated by the principal must notify the student's parents, in writing, that the student has been removed from class and why. The notice must also inform the parent that he or she has the right, upon request, to meet informally with the principal or the principal's designee to discuss the reasons for the removal.

The written notice must be provided by personal delivery, express mail delivery, or some other means that is reasonably calculated to assure receipt of the notice within 24 hours of the student's removal at the last known address for the parents. Where possible, notice should also be provided by telephone if the school has been provided with a telephone number(s) for the purpose of contacting parents.

The principal may require the teacher who ordered the removal to attend the informal conference.

If at the informal meeting the student denies the charges, the principal or the principal's designee must explain why the student was removed and give the student and the student's parents a chance to present the student's version of the relevant events. The informal meeting must be held within 48 hours of the student's removal. The timing of the informal meeting may be extended by mutual agreement of the parent and principal.

The principal or the principal's designee may overturn the removal of the student from class if the principal finds any one of the following: (1) the charges against the student are not supported by substantial evidence, (2) the student's removal is otherwise in violation of law, including the District's code of conduct and/or (3) the conduct warrants suspension from school pursuant to Education Law §3214 and a suspension will be imposed.

The principal or his or her designee may overturn a removal at any point between receiving the referral form issued by the teacher and the close of business on the day following the 48-hour period for the informal conference, if a conference is requested. No student removed from the classroom by the classroom teacher will be permitted to return to the classroom until the principal makes a final determination, or the period of removal expires, whichever is less.

Any disruptive student removed from the classroom by the classroom teacher will be offered continued educational programming and activities until he or she is permitted to return to the classroom.

Each teacher must keep a complete log (on a District provided form) for all cases of removal of students from his or her class. The principal must keep a log of all removals of students from class.

Removal of a student with a disability, under certain circumstances, may constitute a change in the student's placement. Accordingly, no teacher may remove a student with a disability from his or her class until he or she has verified with the principal or the chairperson of the Committee on Special Education that the removal will not violate the student's rights under state or federal law or regulation.

5) Suspension From School

Suspension from school is a severe penalty, which may be imposed only upon students who are insubordinate, disorderly, violent or disruptive, or whose conduct otherwise endangers the safety, morals, health or welfare of others.

The Board retains its authority to suspend students, but places primary responsibility for the suspension of students with the superintendent and the building principals.

Any staff member may recommend to the superintendent or the principal that a student be suspended. All staff members must immediately report and refer a violent student to the principal or the superintendent for a violation of the code of conduct. All recommendations and referrals will be made in writing unless the conditions underlying the recommendation or referral warrant immediate attention. In such cases a written report is to be prepared as soon as possible by the staff member recommending the suspension.

The superintendent or principal, upon receiving a recommendation or referral for suspension, or when processing a case for suspension, will gather the facts relevant to the matter and record them for subsequent presentation, if necessary.

a) Short-Term (5 days or less) Suspension from School

When the superintendent or principal (referred to as the "suspending authority") proposes to suspend a student charged with misconduct for five days or less pursuant to Education Law §3214(3), the suspending authority must immediately notify the student orally. If the student denies the misconduct, the suspending authority must provide an explanation of the basis for the proposed suspension. The suspending authority must also notify the student's parents in writing that the student may be suspended from school. The written notice must be provided by personal delivery, express mail delivery, or some other means that is reasonably calculated to assure receipt of the notice within 24 hours of the decision to propose suspension at the last known address for the parents. Where possible, notice should also be provided by telephone if the school has been provided with a telephone number(s) for the purpose of contacting the parents.

The notice will provide a description of the charges against the student and the incident for which suspension is proposed and will inform the parents of the right to request an immediate informal conference with the principal. Both the notice and informal conference will be in the dominant language or mode of communication used by the parents. At the conference, the parents will be permitted to ask questions of complaining witnesses under such procedures as the principal may establish.

The notice and opportunity for an informal conference will take place before the student is suspended unless the student's presence in school poses a continuing danger to persons or property or an ongoing threat of disruption to the academic process. If the student's presence does pose such a danger or threat of disruption, the notice and opportunity for an informal conference will take place as soon after the suspension as is reasonably practicable.

After the conference, the principal will promptly advise the parents in writing of his or her decision. The principal will advise the parents that if they are not satisfied with the decision and wish to pursue the matter, they must file a written appeal to the superintendent within five business days, unless they can show extraordinary circumstances precluding them from doing so. The superintendent will issue

a written decision regarding the appeal within 10 business days of receiving the appeal. If the parents are not satisfied with the superintendent's decision, they must file a written appeal to the Board of education with the District clerk within 10 business days of the date of the superintendents' decision, unless they can show extraordinary circumstances precluding them from doing so. Only final decisions of the Board may be appealed to the Commissioner within 30 days of the decision.

b) Long-Term (more than 5 days) Suspension from School

When the superintendent or building principal determines that a suspension for more than five days may be warranted, he or she will give reasonable notice to the student and the student's parents of their right to a fair hearing. At the hearing the student will have the right to be represented by counsel, the right to question witnesses against him or her and the right to present witnesses and other evidence on his or her behalf.

The superintendent will personally hear and determine the proceeding or may, at his or her discretion, designate a hearing officer to conduct the hearing. The hearing officer will be authorized to administer oaths and to issue subpoenas in conjunction with the proceeding before him or her. A record of the hearing will be maintained, but no stenographic transcript will be required. A tape recording will be deemed a satisfactory record. The hearing officer will make findings of fact and recommendations as to the appropriate measure of discipline to the superintendent. The report of the hearing officer will be advisory only, and the superintendent may accept all or any part thereof.

An appeal of the decision of the superintendent may be made to the Board that will make its decision based solely upon the record before it. All appeals to the Board must be in writing and submitted to the District clerk within 10 business days of the date of the superintendent's decision, unless the parents can show that extraordinary circumstances precluded them from doing so. The Board may adopt in whole or in part the decision of the superintendent. Final decisions of the Board may be appealed to the Commissioner within 30 days of the decision.

c) Permanent Suspension

Permanent suspension is reserved for extraordinary circumstances such as when a student's conduct poses a life-threatening danger to the safety and well being of other students, school personnel, or any other person lawfully on school property or attending a school function.

C) Minimum Periods of Suspension

1) Students Who Bring A Weapon To School

Any student, other than a student with a disability, found guilty of bringing a weapon onto school property will be subject to suspension from school for at least one calendar year. Before being suspended, the student will have an opportunity for a hearing pursuant to Education Law §3214. The superintendent has the authority to modify the one-year suspension on a case-by-case basis. In deciding whether to modify the penalty, the superintendent may consider the following: (1) the student's age; (2) the student's grade in school; (3) the student's prior disciplinary record; (4) the superintendent's belief that other forms of discipline may be more effective; (4) input from parents, teachers, and/or others; and (5) other extenuating circumstances.

A student with a disability may be suspended only in accordance with the requirements of state and federal law.

2) Students Who Commit Violent Acts Other Than Bringing a Weapon to School

Any student, other than a student with a disability, who is found to have committed a violent act, other than bringing a weapon onto school property, will be subject to suspension from school for at least five days. If the proposed penalty is the minimum five-day suspension, the student and the student's parents will be given the same notice and opportunity for an informal conference given to all students subject to a short-term suspension. If the proposed penalty exceeds the minimum five-day suspension, the student and the student's parents will be given the same notice and opportunity for a hearing given to all students subject to a long-term suspension. The superintendent has the authority to modify the minimum five-day suspension on a case-by-case basis. In deciding whether to modify the penalty, the superintendent may consider the same factors considered in modifying a one-year suspension for possessing a weapon.

3) Students Who Are Repeatedly Substantially Disruptive of the Educational Process or Repeatedly Substantially Interfere with the Teacher's Authority Over the Classroom

Any student, other than a student with a disability, who is repeatedly substantially disruptive of the educational process or substantially interferes with the teacher's authority over the classroom, will be

suspended from school for at least five days. For purposes of this code of conduct, "repeatedly is substantially disruptive" means engaging in conduct that results in the student being removed from the classroom by teacher(s) pursuant to Education law §3214(3-a) and this code on four or more occasions during a semester, or three or more occasions during a trimester. If the proposed penalty is the minimum five-day suspension, the student and the student's parent will be given the same notice and opportunity for an informal conference given to all students subject to a short-term suspension. If the proposed penalty exceeds the minimum five-day suspension, the student and the student's parent will be given the same notice and opportunity for a hearing given to all students subject to a long-term suspension. The superintendent has the authority to modify the minimum five-day suspension on a case-by-case basis. In deciding whether to modify the penalty, the superintendent may consider the same factors considered in modifying a one-year suspension for possessing a weapon.

D) Referrals

1) Counseling

The Guidance Office will handle all referrals of students to counseling.

2) PINS Petitions

The District may file a PINS (Person In Need Of Supervision) petition in Family Court on any student under the age of 18 who demonstrates that he or she requires supervision and treatment by:

- a) Being habitually truant and not attending school as required by part one of Article 65 of the Education Law.
- b) Engaging in an on-going or continual course of conduct that makes the student ungovernable or habitually disobedient and beyond the lawful control of the school.
- c) Knowingly and unlawfully possesses marijuana in violation of Penal Law § 221.05. A single violation of § 221.05 will be a sufficient basis for filing a PINS petition.

3) Juvenile Delinquents and Juvenile Offenders

The superintendent is required to refer the following students to the County Attorney for a juvenile delinquency proceeding before the Family Court:

- a) Any student under the age of 16 who is found to have brought a weapon to school, or
- b) Any student 14 or 15 years old who qualifies for juvenile offender status under the Criminal Procedure Law §1.20 (42).

The superintendent is required to refer any student age 16 and older, or any student 14 or 15 years old who qualifies for juvenile offender status, to the appropriate law enforcement authorities.

IX. ALTERNATIVE INSTRUCTION

When a teacher removes a student of any age from class or a student of compulsory attendance age is suspended from school pursuant to Education law §3214, the District will take immediate steps to provide alternative means of instruction for the student.

X. DISCIPLINE OF STUDENTS WITH DISABILITIES

The Board recognizes that it may be necessary to suspend, remove, or otherwise discipline students with disabilities to address disruptive or problem behavior. The Board also recognizes that students with disabilities receive certain procedural protections whenever school authorities intend to impose discipline upon them. The Board is committed to ensuring that the procedures followed for suspending, removing or otherwise disciplining students with disabilities are consistent with the procedural safeguards required by applicable laws and regulations.

This code of conduct affords students with disabilities subject to disciplinary action no greater or lesser rights than those expressly afforded by applicable federal and state law and regulations.

A) Authorized Suspensions or Removals of Students With Disabilities

- 1) For purposes of this section of the Code of Conduct, the following definitions apply:

A suspension means a suspension pursuant to Education Law § 3214.

A removal means a removal for disciplinary reasons from the student's current educational placement other than a suspension and change in placement to an Interim Alternative Educational Setting (IAES) ordered by an impartial hearing officer because the student poses a risk of harm to himself or herself or others.

An IAES means a temporary educational placement for a period of up to 45 days, other than the student's current placement at the time the behavior precipitating the IAES placement occurred, that enables the student to continue to progress in the general curriculum, although in another setting, to continue to receive those services and modifications, including those described on the student's current Individualized Education Program (IEP), that will enable the student to meet the goals set out in such IEP, and include services and modifications to address the behavior which precipitated the IAES placement that are designed to prevent the behavior from recurring.

- 2) School personnel may order the suspension or removal of a student with a disability from his or her current educational placement as follows:
 - a) The Board, the District (BOCES) superintendent of schools or a building principal may order the placement of a student with a disability into an IAES, another setting or suspension for a period not to exceed five consecutive school days and not to exceed the amount of time a non-disabled student would be subject to suspension for the same behavior.
 - b) The superintendent may order the placement of a student with a disability into an IAES, another setting or suspension for up to 10 consecutive school days, inclusive of any period in which the student has been suspended or removed under subparagraph (a) above for the same behavior, if the superintendent determines that the student has engaged in behavior that warrants a suspension and the suspension or removal does not exceed the amount of time a non-disabled student would be subject to suspension for the same behavior.
 - c) The superintendent may order additional suspensions of not more than 10 consecutive school days in the same school year for separate incidents of misconduct, as long as those removals do not constitute a change of placement.
 - d) The superintendent may order the placement of a student with a disability in an IAES to be determined by the Committee On Special Education (CSE), for the same amount of time that a student without a disability would be subject to discipline, but not more than 45 days, if the student carries or possesses a weapon to school or to a school function, or the student knowingly possesses or uses illegal drugs or sells or solicits the sale of a controlled substance while at school or a school function.

Weapon means the same as dangerous weapon under 18 U.S.C. § 930 (g) (w) which includes "a weapon, device, instrument, material or substance, animate or inanimate, that is used for, or is readily capable of causing death or serious bodily injury, except ... [for] a pocket knife with a blade of less than 2 ½ inches in length."

Controlled substance means a drug or other substance identified in certain provisions of the federal Controlled Substances Act specified in both federal and state law and regulations applicable to this policy.

Illegal drugs means controlled substances except for those legally possessed or used under the supervision of a licensed health-care professional or that are legally possessed or used under any other authority under the Controlled Substances Act or any other federal law.

- 3) Subject to specified conditions required by both federal and state law and regulations, an impartial hearing officer may order the placement of a student with a disability in an IAES setting for up to 45 days at a time, if maintaining the student in his or her current educational placement poses a risk of harm to the student or others.

B) Change of Placement Rule

- 1) A disciplinary change in placement means a suspension or removal from a student's current educational placement that is either:
 - a) For more than 10 consecutive school days or
 - b) For a period of 10 consecutive school days or less if the student is subjected to a series of suspensions or removals that constitute a pattern because they cumulate to more than 10 school days in a school year and because of such factors as the length of each suspension or removal, the total amount of time the student is removed and the proximity of the suspensions or removals to one another.

- 2) School personnel may not suspend or remove a student with disabilities if imposition of the suspension or removal would result in a disciplinary change in placement based on a pattern of suspension or removal. However, the District may impose a suspension or removal, which would otherwise result in a disciplinary change in placement, based on a pattern of suspensions or removals if the CSE has determined that the behavior was not a manifestation of the student's disability or the student is placed in an IAES for behavior involving weapons, illegal drugs or controlled substances.

C) Special Rules Regarding the Suspension or Removal of Students With Disabilities

- 1) The parents of a student who is facing disciplinary action, but who has not been determined to be eligible for services under IDEA and Article 89 at the time of misconduct, will have the right to invoke applicable procedural safeguards set forth in federal and state law and regulations if, in accordance with federal and state statutory and regulatory criteria, the school District is deemed to have had knowledge that their child was a student with a disability before the behavior precipitating disciplinary action occurred. If the District is deemed to have had such knowledge, the student will be considered a student presumed to have a disability for discipline purposes.
 - a) The superintendent, building principal or other school official imposing a suspension or removal will be responsible for determining whether the student is a student presumed to have a disability.
 - b) A student will not be considered a student presumed to have a disability for discipline purposes if, upon receipt of information supporting a claim that the District had knowledge the student was a student with a disability, the District either:
 1. Conducted an individual evaluation and determined that the student is not a student with a disability, or
 2. Determined that an evaluation was not necessary and provided notice to the parents of such determination, in the manner required by applicable law and regulations. If there is no basis for knowledge that the student is a student with a disability prior to taking disciplinary measures against the student, the student may be subjected to the same disciplinary measures as any other non-disabled student who engaged in comparable behaviors.

However, if a request for an individual evaluation is made while such non-disabled student is subjected to a disciplinary removal, an expedited evaluation will be conducted and completed in the manner prescribed by applicable federal and state law and regulations. Until the expedited evaluation is completed, the non-disabled student who is not a student presumed to have a disability for discipline purposes will remain in the educational placement determined by the District, which can include suspension.

- 2) The District will provide parents with notice of disciplinary removal no later than the date on which a decision is made to change the placement of a student with a disability to an IAES for either misconduct involving weapons, illegal drugs or controlled substances or because maintaining the student in his/her current educational setting poses a risk of harm to the student or others; or a decision is made to impose a suspension or removal that constitutes a disciplinary change in placement. The procedural safeguards notice prescribed by the Commissioner will accompany the notice of disciplinary removal.
- 3) The parents of a student with disabilities subject to a suspension of five consecutive school days or less will be provided with the same opportunity for an informal conference available to parents of non-disabled students under the Education Law.
- 4) Superintendent hearings on disciplinary charges against students with disabilities subject to a suspension of more than five school days will be bifurcated into a guilt phase and a penalty phase in accordance with the procedures set forth in the Commissioner's regulations incorporated into this code.
- 5) The removal of a student with disabilities other than a suspension or placement in an IAES will be conducted in accordance with the due process procedures applicable to such removals of non-disabled students, except that school personnel may not impose such removal for more than 10 consecutive days or for a period that would result in a disciplinary change in placement, unless the CSE has determined that the behavior is not a manifestation of the student's disability.
- 6) During any period of suspension or removal, including placement in an LAM, students with disabilities will be provided services as required by the Commissioner's regulations incorporated into this code.

D) Expedited Due Process Hearings

- 1) An expedited due process hearing will be conducted in the manner specified by the Commissioner's regulations incorporated into this code, if:

- a) The District requests such a hearing to obtain an order of an impartial hearing officer placing a student with a disability in an IAES where school personnel maintain that it is dangerous for the student to be in his or her current educational placement, or during the pendency of due process hearings where school personnel maintain that it is dangerous for the student to be in his or her current educational placement during such proceedings.
 - b) The parent requests such a hearing from a determination that the student's behavior was not a manifestation of the student's disability, or relating to any decision regarding placement, including but not limited to any decision to place the student in an IAES.
- 2) During the pendency of an expedited due process hearing or appeal regarding the placement of a student in an IAES for behavior involving weapons, illegal drugs or controlled substances, or on grounds of dangerousness, or regarding a determination that the behavior is not a manifestation of the student's disability for a student who has been placed in an IAES, the student will remain in the IAES pending the decision of the impartial hearing officer or until expiration of the IM placement, whichever occurs first, unless the parents and the District agree otherwise.
 - 3) If school personnel propose to change the student's placement after expiration of an IAES placement, during the pendency of any proceeding to challenge the proposed change in placement, the student will remain in the placement prior to removal to the IAES, except where the student is again placed in an IAES.
 - 4) An expedited due process hearing will be completed within 15 business days of receipt of the request for a hearing. Although the impartial hearing officer may grant specific extensions of such time period, he or she must mail a written decision to the District and the parents within five business days after the last hearing date, and in no event later than 45 calendar days after receipt of the request for a hearing, without exceptions or extensions.

E) Referral to Law Enforcement and Judicial Authorities

In accordance with the provisions of IDEA and its implementing regulations:

- 1) The District may report a crime committed by a child with a disability to appropriate authorities, and such action will not constitute a change of the student's placement.
- 2) The superintendent will ensure that copies of the special education and disciplinary records of a student with disabilities are transmitted for consideration to the appropriate authorities to which a crime is reported.

XI. CORPORAL PUNISHMENT

Corporal punishment is any act of physical force upon a student for the purpose of punishing that student. Corporal punishment of any student by any District employee is strictly forbidden.

However, in situations where alternative procedures and methods that do not involve the use of physical force cannot reasonably be used, reasonable physical force may be used to:

- A) Protect oneself, another student, teacher, or any person from physical injury.
- B) Protect the property of the school or others.
- C) Restrain or remove a student whose behavior interferes with the orderly exercise and performance of school District functions, powers and duties, if that student has refused to refrain from further disruptive acts. The District will file all complaints about the use of corporal punishment with the Commissioner of Education in accordance with Commissioner's regulations.

XII. STUDENT SEARCHES AND INTERROGATIONS

The Board of Education is committed to ensuring an atmosphere on school property and at school functions that is safe and orderly. To achieve this kind of environment, any school official authorized to impose a disciplinary penalty on a student may question a student about an alleged violation of law or the District code of conduct. Students are not entitled to any sort of "Miranda"-type warning before being questioned by school officials, nor are school officials required to contact a student's parent before questioning the student. However, school officials will tell all students why they are being questioned.

In addition, the Board authorizes the superintendent, building principals, the school nurse, and District security officials to conduct searches of students and their belongings if the authorized school official has reasonable suspicion to believe that the search will result in evidence that the student violated the law or the District code of conduct.

An authorized school official may conduct a search of a student's belongings that is minimally intrusive, such as touching the outside of a book bag, without reasonable suspicion, as long as the school official has a legitimate reason for the very limited search.

An authorized school official may search a student or the student's belongings based upon information received from a reliable informant. Individuals, other than the District employees, will be considered reliable informants if they have previously supplied information that was accurate and verified, or they make an admission against their own interest, or they provide the same information that is received independently from other sources, or they appear to be credible and the information they are communicating relates to an immediate threat to safety. District employees will be considered reliable informants unless they are known to have previously supplied information that they knew was not accurate.

Before searching a student or the student's belongings, the authorized school official should attempt to get the student to admit that he or she possesses physical evidence that they violated the law or the District code, or get the student to voluntarily consent to the search. Searches will be limited to the extent necessary to locate the evidence sought.

Whenever practicable, searches will be conducted in the privacy of administrative offices and students will be present when their possessions are being searched.

A) Student Lockers, Desks and Other School Storage Places

The rules in this code of conduct regarding searches of students and their belongings do not apply to student lockers, desks, and other school storage places. Students have no reasonable expectation of privacy with respect to these places and school officials retain complete control over them. This means that student lockers, desks, and other school storage places may be subject to search at any time by school officials, without prior notice to students and without their consent.

B) Strip Searches

A strip search is a search that requires a student to remove any or all of his or her clothing, other than an outer coat or jacket. If an authorized school official believes it is necessary to conduct a strip search of a student, the school official may do so only if the search is authorized in advance by the superintendent or the school attorney. The only exception to this rule requiring advanced authorization is when the school official believes there is an emergency situation that could threaten the safety of the student or others.

Strip searches may only be conducted by an authorized school official of the same sex as the student being searched and in the presence of another District professional employee who is also of the same sex as the student.

In every case, the school official conducting a strip search must have probable cause - not simply reasonable cause to believe the student is concealing evidence of a violation of law or the District code. In addition, before conducting a strip search, the school official must consider the nature of the alleged violation, the student's age, the student's record and the need for such a search.

School officials will attempt to notify the student's parent by telephone before conducting a strip search or in writing after the fact if the parent could not be reached by telephone.

C) Documentation of Searches

The authorized school official conducting the search will be responsible for promptly recording the following information about each search:

- 1) Name, age and grade of student searched.
- 2) Reasons for the search.
- 3) Name of any informant(s).
- 4) Purpose of search (that is, what item(s) were being sought).
- 5) Type and scope of search.
- 6) Person conducting search and his or her title and position.
- 7) Witnesses, if any, to the search.
- 8) Time and location of search.
- 9) Results of search (that is, what items (s) were found).
- 10) Disposition of items found.

11) Time, manner and results of parental notification.

The building principal or the principal's designee will be responsible for the custody, control, and disposition of any illegal or dangerous item taken from a student. The principal or his or her designee will clearly label each item taken from the student and retain control of the item(s), until the items is turned over to the police. The principal or his or her designee will be responsible for personally delivering dangerous or illegal items to police authorities.

D) Police Involvement in Searches and Interrogations of Students

District officials are committed to cooperating with police officials and other law enforcement authorities to maintain a safe school environment. Police officials, however, have limited authority to interview or search students in schools or at school functions, or to use school facilities in connection with police work. Police officials may enter school property or a school function to question or search a student or to conduct a formal investigation involving students only if they have:

- 1) A search or an arrest warrant; or
- 2) Probable cause to believe a crime has been committed on school property or at a school function; or
- 3) Been invited by school officials.

Before police officials are permitted to question or search any student, the building principal or his or her designee will first try to notify the student's parent to give the parent the opportunity to be present during the police questioning or search. If the student's parent cannot be contacted prior to the police questioning or search, the questioning or search will not be conducted. The principal or designee will also be present during any police questioning or search of a student on school property or at a school function.

Students who are questioned by police officials on school property or at a school function will be afforded the same rights they have outside the school. This means:

- 1) They must be informed of their legal rights.
- 2) They may remain silent if they so desire.
- 3) They may request the presence of an attorney.

E) Child Protective Services Investigations

Consistent with the District's commitment to keep Students safe from harm and the obligation of school officials to report to child protective services when they have reasonable cause to suspect that a student has been abused or maltreated, the District will cooperate with local child protective services workers who wish to conduct interviews of students on school property relating to allegations of suspected child abuse, and/or neglect, or custody investigations.

All requests by child protective services to interview a student on school property will be made directly to building principal or his or her designee. The principal or his or her designee will set the time and place of the interview. The principal or designee will decide if it is necessary and appropriate for a school official to be present during the interview, depending on the age of the student being interviewed and the nature of the allegations. If the nature of the allegations is such that it may be necessary for the student to remove any of his or her clothing in order for the child protective services worker to verify the allegations, the school nurse or other District medical personnel must be present during that portion of the interview. No student may be required to remove his or her clothing in front of a child protective services worker or school District official of the opposite sex.

A child protective services worker may not remove a student from school property without a court order, unless the worker reasonably believes that the student would be subject to danger of abuse if he or she were not removed from school before a court order can reasonably be obtained. If the worker believes the student would be subject to danger of abuse, the worker may remove the student without a court order and without the parents consent.

XIII. VISITORS TO THE SCHOOL

The Board encourages parents and other District citizens to visit the District's schools and classrooms to observe the work of students, teachers, and other staff. However, since schools are a place of work and learning, certain limits must be set for such visits. The building principal or his or her designee is responsible for all persons in the building and on the grounds. For these reasons, the following rules apply to visitors to the schools:

- A) Anyone who is not a regular staff member or student of the school will be considered a visitor.
- B) Upon arrival at school, all visitors to the school must sign the visitor's register at the greeter's desk in the main lobby of the school. Visitors will be issued visitor identification badges, which must be worn at all times while in the school or on school grounds. Visitors must then report to the office of the principal. Visitors must return the identification badge to the main office and sign out before leaving the building.
- C) Visitors attending school functions that are open to the public, such as parent-teacher organization meetings or similar public gatherings, are not required to register.
- D) Parents or citizens who wish to observe a classroom while school is in session are required to arrange such visits in advance with the classroom teacher(s), so that class disruption is kept to a minimum.
- E) Teachers are not expected to take class time to discuss individual matters with visitors.
- F) Any unauthorized person on school property will be reported to the principal or his or her designee. Unauthorized persons will be asked to leave. The police may be called if the situation warrants.
- G) All visitors are expected to abide by the rules for public conduct on school property contained in this code of conduct.

XIV. PUBLIC CONDUCT ON SCHOOL PROPERTY

The District is committed to providing a mutually, respectful environment that is conducive to learning. To create and maintain this kind of an environment, it is necessary to regulate public conduct on school property and at school functions.

For purposes of this section of the code, "public" will mean all persons on school property or attending a school function, including students, teachers, and District personnel.

The restrictions on public conduct on school property and at school functions contained in this code are not intended to limit freedom of speech or peaceful assembly. The District recognizes that free inquiry and free expression are indispensable to the objectives of the District. The purpose of this code is to maintain public order and prevent abuse of the rights of others.

All persons on school property or attending a school function will conduct themselves in a respectful and orderly manner. In addition, all persons on school property or attending a school function are expected to be properly attired for the purpose they are on school property.

A) Prohibited Conduct - No Person, Either Alone or With Others, Will:

- 1) Intentionally injure any person or threaten to do so.
- 2) Intentionally damage or destroy school District property or the personal property of a teacher, administrator, other District employee or any person lawfully on school property, including graffiti or arson.
- 3) Disrupt the orderly conduct of classes, school programs or other school activities.
- 4) Distribute or wear materials on school grounds or at school functions that are obscene, advocate illegal action, appear libelous, obstruct the rights of others, or are disruptive to the school program.
- 5) Intimidate, harass or discriminate against any person on the basis of race, color, creed, national origin, religion, age, gender, sexual orientation or disability.
- 6) Enter any portion of the school premises without authorization or remain in any building or facility after it is normally closed.
- 7) Obstruct the free movement of any person in any place to which this code applies.
- 8) Violate the traffic laws, parking regulations or other restrictions on vehicles.
- 9) Possess, consume, sell, distribute, or exchange alcoholic beverages, controlled substances or be under the influence of either on school property or at a school function.
- 10) Possess or use weapons in or on school property or at a school function - except in the case of law enforcement officers or except as specifically authorized by the school District.
- 11) Loiter on or about school property.
- 12) Gamble on school property or at school functions.
- 13) Refuse to comply with any reasonable order of identifiable school District officials performing their duties.
- 14) Willfully incite others to commit any of the acts prohibited by this code.
- 15) Violate any federal or state statute, local ordinance, or Board policy while on school property or while at a school function.

B) Penalties - Persons Who Violate This Code Will be Subject to the Following Penalties:

- 1) Visitors - Their authorization, if any, to remain on school grounds or at the school function will be withdrawn and they will be directed to leave the premises. If they refuse to leave, they will be subject to ejection.
- 2) Students - They will be subject to disciplinary action as the facts may warrant, in accordance with the due process requirements.
- 3) Tenured faculty members - They will be subject to disciplinary action as the facts may warrant in accordance with Education Law §3020-a or any other legal rights that they may have.
- 4) Staff members in the classified service of the civil service entitled to the protection of Civil Service Law §75 - They will be subject to immediate ejection and to disciplinary action as the facts may warrant in accordance with Civil Service Law §75 or any other legal rights that they may have.
- 5) Staff members other than those described in subdivisions 4 and 5 - They will be subject to warning, reprimand, suspension or dismissal as the facts may warrant in accordance with any legal rights they may have.

C) Enforcement

The superintendent, the building principal, or his or her designee will be responsible for enforcing the conduct under this section. A visitor to school grounds has the right to be notified of the alleged misconduct and given an opportunity to present his or her version of the events prior to any discipline being imposed. In addition to the above penalties the district may revoke the visitor's authorization to attend future school sponsored functions as well as bringing legal charges and claims.

XV. PUBLICATION, DISSEMINATION, AND REVIEW

A) Publication and Dissemination of the Code of Conduct

The Board will work to ensure that the community is aware of this code of conduct by:

- 1) Providing copies of a summary of the code to all students at a general assembly held at the beginning of each school year.
- 2) Making copies of the code available to all parents at the beginning of the school year.
- 3) Mailing a summary of the code of conduct written in plain language to all parents of District students before the beginning of the school year and making this summary available later upon request.
- 4) Providing all current teachers and other staff member with a copy of the code and a copy of any amendment to the code as soon as practicable after adoption.
- 5) Providing all new employees with a copy of the current code of conduct when they are first hired.
- 6) Making copies of the code available for review by students, parents, and other community members. The Board will sponsor an in-service education program for all District staff members to ensure the effective implementation of the code of conduct. The superintendent may solicit the recommendations of the District staff, particularly teachers and administrators, regarding in service programs pertaining to the management and discipline of students.

B) Review of the Code of Conduct

The Board of Education will review this code of conduct every year and update it as necessary. In conducting the review, the Board will consider how effective the code's provisions have been and whether the code has been applied fairly and consistently.

The Board may appoint an advisory committee to assist in reviewing the code and the District's response to code of conduct violations. The committee will be made up of representatives of student, teacher, administrator, and parent organizations, school safety personnel, and other school personnel.

Before adopting any revisions to the code, the Board will hold at least one public hearing at which school personnel, parents, students, and any other interested party may participate.

The code of conduct and any amendments to it will be filed with the Commissioner no later than 30 days after adoption.

APPENDIX #2

Charlotte Valley Central School

Davenport, New York 13750

Board of Education Policy #050220-1
Searches and Interrogations

(Effective date - 2/10/05)

In recognition of certain societal problems which present themselves from time to time in our schools, the Charlotte Valley Central School Board of Education authorizes the Superintendent of Schools and other individuals as outlined in Section XII. Of the Charlotte Valley Central School Code of Conduct (STUDENT SEARCHES AND INTERROGATIONS) to conduct searches of pupils and their possessions for illegal matter or matter which otherwise constitutes a threat to the health, safety, and welfare or morals of pupils attending our schools.

In authorizing such searches, the Board acknowledges both state and federal constitutional rights which are applicable to personal searches of pupils and their possessions (i.e., pocket contents, book bags, handbags, etc.).

Pupils shall be informed by the administration that school lockers are not their private property but the property of the school district and that such may be opened and subject to inspection from time to time by school officials. A student may have exclusive use of a locker as far as other students are concerned, but does not have exclusivity over the locker with respect to school authorities.

Realizing the intrusive nature of any search which requires a pupil to remove any and/or all clothing, the Board authorizes such searches to be conducted only upon the existence of probable cause as determined following a review of the facts by the School Attorney or the Superintendent in the absence of the School Attorney. However, searches of outer coats or jackets are permitted when founded upon reasonable suspicion.

The Superintendent shall establish regulations regarding personal searches of students in accordance with this policy and the law. Interrogations of students by Child Protective Services are also subject to administrative regulations.

When possible, police authorities shall deal directly with parents or guardians of students. When investigations involve the school, district staff are to cooperate with the police and make every effort to contact parents prior to the investigation in order that the parents may be represented, if they so desire.

Additionally, the School Board hereby designates the Superintendent as its agent to determine, in his or her discretion, whether a program ought to be implemented whereby trained dogs, under the supervision of their trainers and law enforcement officials, may sniff lockers, desks, or other storage areas. The purpose of such a program is to determine whether violations of the law, school policy or rules, exists. In the event that a trained dog designates a positive alert, students should be aware that such a positive alert may constitute reasonable suspicion to allow the search of the contents of such area.

**Charlotte Valley Central School
Regulation Pertaining to
Child Protective Services' Investigations**

From time to time, Child Protective Services may desire to conduct interviews of students at the Charlotte Valley Central School District on school property. Such interviews generally pertain to allegations of suspected child abuse and/or neglect. The following guidelines apply to all such interviews:

ATTENTION STUDENTS: NOTICE OF SEARCH

Students should be aware that their assigned locker is not their private property, but is the property of the school district. Lockers are jointly accessible to the students and school officials and may be subject to search at the discretion of school officials as well as any enforcement agency designated by school officials. This is in accordance with Board of Education policy # 050220-1 and supported by administrative regulation number # 050220-1 as follows:

Board of Education Policy #050220-1

Searches and Interrogations

In recognition of certain societal problems which present themselves from time to time in our schools, the Charlotte Valley Central School Board of Education authorizes the Superintendent of Schools or his/her designee to conduct searches of pupils and their possessions for illegal matter or matter which otherwise constitutes a threat to the health, safety, and welfare or morals of pupils attending our schools.

In authorizing such searches, the Board acknowledges both state and federal constitutional rights which are applicable to personal searches of pupils and their possessions (i.e., pocket contents, book bags, handbags, etc.).

Pupils shall be informed by the administration that school lockers are not their private property but the property of the school district and that such may be opened and subject to inspection from time to time by school officials. A student may have exclusive use of a locker as far as other students are concerned, but does not have exclusivity over the locker with respect to school authorities.

Realizing the intrusive nature of any search which requires a pupil to remove any and/or all clothing, the Board authorizes such searches to be conducted only upon the existence of probable cause as determined following a review of the facts by the School Attorney or the Superintendent in the absence of the School Attorney. However, searches of outer coats or jackets are permitted when founded upon reasonable suspicion.

The Superintendent shall establish regulations regarding personal searches of students in accordance with this policy and the law. Interrogations of students by Child Protective Services are also subject to administrative regulations.

When possible, police authorities shall deal directly with parents or guardians of students. When investigations involve the school, district staff are to cooperate with the police and make every effort to contact parents prior to the investigation in order that the parents may be represented, if they so desire.

Additionally, the School Board hereby designates the Superintendent as its agent to determine, in his or her discretion, whether a program ought to be implemented whereby trained dogs, under the supervision of their trainers and law enforcement officials, may sniff lockers, desks, or other storage areas. The purpose of such a program is to determine whether violations of the law, school policy, or rules, exists. In the event that a trained dog designates a positive alert, students should be aware that such a positive alert may constitute reasonable suspicion to allow the search of the contents of such area.

Appendix A

Generally speaking, "**obscenity**" is defined as any work that an average person (applying contemporary community standards) would find, taken as a whole, appeals to a prurient interest. The work also must depict or describe, in a patently offensive way, sexually conduct as specifically defined in state law. Moreover, the work, taken as a whole, has to lack serious literary, artistic, political or scientific value. (See 18 U.S.C. §1460 and the cases interpreting that statute.)

"**Child pornography**" is defined as:

... any visual depiction, including a photograph, film, video, picture, or computer or computer-generated image or picture, whether made or produced by electronic, mechanical or other means, of sexually explicit conduct, where (a) the production of visual depiction involves the use of a minor [someone under the age of 18] engaging in sexually explicit conduct; (b) such visual depiction is or appears to be, of a minor engaging in sexually explicit conduct; (c) such visual depiction has been created, adapted, or modified to appear that an identifiable minor is engaging in sexually explicit conduct; or (d) such visual depiction is advertised, promoted, presented, described or distributed in such manner that conveys the impression that the material is or contains a visual depiction of a minor engaging in sexually explicit conduct. (18 U.S.C. §2256[8]).

The phrase "**harmful to minors**" is defined as:

... any picture, image, graphic image, file, or other visual depiction that that (a) taken as whole and with respect to minors [defined here as anyone under the age of 17], appeals to a prurient in nudity, sex or excretion; (b) depicts, describes, or represents, in a patently offensive way with respect to what is suitable for minors, an actual or simulated sexual act or sexual contact, actual or simulated normal or perverted sexual acts, or a lewd exhibition of the genitals; and (c) taken as a whole, lacks serious literary, artistic, political, or scientific value as to minors. (Public Law 106-554,§1703[b][2].)

ACCESS TO ELECTRONIC TELECOMMUNICATIONS**

- I. Access to electronic telecommunications is available to students and staff at the Otsego Northern Catskills Board of Cooperative Educational Services (BOCES). Access is through a variety of providers and includes E-Mail, telephone, FAX, television, radio, Distance Learning, Internet and other on-line computer services, as well as electronic interlibrary loan. The goal in providing these services to students and staff is to promote educational excellence by facilitating resource sharing, innovation, and communication.
- II. Electronic telecommunications is a general term referring to many systems of communication that are handled through electronic devices. The Internet, for example, is an "electronic highway providing communications with millions of people all over the planet. Distance Learning, as currently configured, provides audio and video interactivity for students in up to four locations.
- III. In the past, access to instructional materials was limited because instructors and supervisors could subject such materials to reasonable selection criteria. Through electronic telecommunications, material becomes available that may not be considered to be of educational value in the context of the school setting. Available precautions are taken by the Charlotte Valley Central School to restrict access to controversial materials, as defined in Regulation 9045.1. In addition, the appropriate utilization of electronic telecommunications relies on the proper conduct of the students and staff in adhering to guidelines. The guidelines are provided so that students and staff are aware of their responsibilities in appropriately utilizing telecommunications.
- IV. The use of electronic telecommunications is a privilege, not a right, and inappropriate use will result in a cancellation of those privileges. Based upon the acceptable use guidelines, the staff may request the District Superintendent to deny or revoke the privilege of an individual to utilize specific nodes of electronic telecommunications at the Charlotte Valley Central School.
- V. Communication on electronic telecommunications is subject to a need for responsible behavior and is governed, in addition to this policy, by the district's Student Discipline Policy (Policy #9040), Code of Ethics (Policy #2250), and Copyright Law (Policy #10241).
- VI. The Charlotte Valley Central School will enter into agreement with regional networks and providers of connections to electronic telecommunication, and adhere to government regulations on the use of electronic telecommunications. Students and staff are expected to adhere to the stipulations of these agreements and regulations.
- VII. The Board authorizes the District Superintendent to prepare appropriate Procedures with guidelines for implementing this policy.

D. In order to encourage student attendance, the following strategies and incentives shall apply:

1. Minimum Attendance for Course Credit

a. A student must be noted as present at 85% of a course's scheduled classes in order to earn credit for the course. - i. For purposes of minimum attendance requirements, a student shall not be counted as present for a class if the student misses more than 10 minutes of class, whether through tardiness or early departure.
- ii. Students of compulsory attendance age suspended from school instruction may not be marked as absent unless they fail to attend scheduled alternative education on that day.
- iii. Students over the compulsory attendance age suspended from school instruction will be marked absent unless they have been assigned alternative education. If alternative education has been assigned, only failure to attend scheduled alternative education shall count as an absence.

- i. when a student has been marked as absent for 10% of a course's classes, the district shall notify the student and his parent(s) or persons in parental relation that the student is approaching the limit of absences for losing course credit for failure to attend class. The notice will include the school's attendance for credit policy, the actual number of classes the student may miss before forfeiting the right to earn credit, and the actual number of classes missed to date;
- ii. a student and his parent(s) or persons in parental relation will be advised one month before the completion of the course if the student is in jeopardy of losing credit for failure to attend. The notice will include the school's attendance for credit policy, the actual number of classes the student may miss before forfeiting the right to earn credit, and the actual number of classes missed to date;
- iii. teachers will provide makeup work upon request so that students who are in jeopardy of forfeiting class credits due to excused absences have the opportunity to earn credit for the course;
- iv. where a student is in jeopardy of losing credit for excessive absences, the Building Principal shall be responsible for reviewing attendance records, determining eligibility for makeup work for excused absences, and arranging student makeup opportunities with teachers, including deadlines.

2. Notice of Absences

The pupil's parent(s) or person in parental relation shall be notified of a pupil's unexcused absence, tardiness or early departure according to the following:

- a. where a pupil has not been marked as present for the first period of scheduled instruction and the school has not been previously notified of the absence, the district shall attempt to contact the pupil's parent(s) or person in parental relation to learn the nature of the pupil's absence and notify the parent that the pupil has not arrived at school;
- b. for every 3 unexcused absences, tardies, early departures, or any combination thereof, the pupil's parent(s) or persons in parental relation shall receive a notice containing the dates, times, and the nature of the pupil's unexcused nonpresence.
- c. In addition, the designated staff member will contact local Child Protective Services (CPS) if they suspect that the child is being educationally neglected. The designated staff member will provide CPS with the information necessary to initiate a report. If other staff members suspect education neglect, they must follow the procedures set forth in the District's child abuse policy and advise the [insert appropriate title: district attendance monitor].
